Summary

Recent software engineering graduate from the University of Sydney, combining strong coding skills with hands-on experience in full stack web development, CI/CD, DevOps, and Cloud technologies. Experienced in crafting end-to-end web solutions, from responsive front-end interfaces to robust back-end systems. Adept at working effectively in fast-paced, deadline-driven settings that demand strong organisational and analytical skills. Eager to contribute my talents to a dynamic and innovative team, continually learning and growing in the process.

Experience

IT Support Technician

China Mobile International Limited · Part-time / Shanghai, CN

Jun – Dec 2022

- Provided daily technical support to customers and non-IT employees
- Conducted maintenance and upgrades, including system patches and hardware checks
- Collaborated with team members to streamline the support process, reducing wait times by 15%

Projects

Mobile Phone Repair Service Platform 2.0 ([Website](#))

Feb – Jun 2024

- Led a team of 6: organised meetings, delegated tasks, helped teammates debug, etc
- Enhanced three portals (Admin, Technician, Customer) based on the clients' feedback and requirements from the initial version 1.0
- Utilised APIs to enable users to share the website homepage on third-party social media platforms
- Established a CI/CD pipeline using GitHub Actions to support DevOps practices, ensuring seamless integration and delivery
- Used: **GitHub Actions, AWS, HTML, CSS, JS, React, PHP, Laravel, MySQL**

Social Health and Fitness Web Application ([GitHub](#))

Aug – Nov 2023

- Developed a web application to address the obesity problem by creating a social hub for people to work out in groups
- Implemented the entire login system to allow CRUD operations on the user list and user validation
- Created a leaderboard feature where users can view exercise data and check the workout records of the top three users
- Used: **HTML, CSS, JSP, Java, Spring Boot, MySQL, RESTful APIs**

Skills

Programming	Java, JavaScript, Python, Swift
Web & Database	HTML, CSS, MySQL, PostgreSQL
Frameworks	React, UIKit, Laravel, Spring Boot
Tools	AWS, Git, Gradle, Figma, IntelliJ, Eclipse, VSCode, Xcode, MS Office
Language	English, Japanese, Mandarin
Soft Skills	Teamwork, Multi-tasking, Problem Solving, Strong Communication

Education

Master of Information Technology in Software Engineering

University of Sydney

Feb 2023 – Jun 2024
